BENEFITS OF NSIC-TRAINING

- Hands on training from the basics.
- **Skill Enhancement:** These programs focus on the latest and in-demand technologies, equipping students with critical skills that align with industry requirements and trends.
- **Industrial Exposure:** Students can learn from the **DIRECT INDUSTRIAL MANUFACTURERS**, allowing them to interact to industry experts and gain practical exposure to real-world challenges.
- Entrepreneurship development training
- **Central Government certificate** will be provided for every individual participant
- Students who receive this central government internship certificate have huge advantage in cracking all placements as they are highly valuable.
- **Networking:** Through these internship programs, students have the opportunity to build a strong network of professionals, mentors, and peers, opening doors to potential job offers and collaborations in the future.
- **Job Fair & Placement Support** - Students who excel during their time with us will have the opportunity to secure future employment in our esteemed organization with expected salary packages from 60-70k per month or through our extensive network of industry connections. We believe in nurturing and developing talent, and we are committed to helping students kickstart their careers.
